At that time the main line [17...h6 18.Be3 Nc5 19.Qd2 h5 was not yet known.] **18.Qd2 Qe7** My plan is to transfer the black queen to f8 via e7, in order to exchange dark-squared bishops and to weaken the dark squares in White's position. This game was given in full in Fatbase as "Umnanskuh-Berry"? After 21 moves of play, I decided to accept the claim from Mr Umansky for the 2nd ETL vs Berry. At the end of March 1993 I revoke my decision since Berry sent to me 2 cards which he than recently have received in the post. One cards shows that Umanskys registered(!) cards with postmark 30 NOV 92 was received by Berry 67 days later, which have the Canadian postmark on it 05 FEB 93(!). Another registered card from Umansky which was sent by registered mail on 8 OCT 92 has two Canadian postmarks on it 09 FEB and 11 FEB 93. Berry received these cards on 15 FEB 93 after almost 130 days in transit. Under such terrible postal connections between Russia and Canada, and strong evidences sent by Berry, Umansky did not ask for an second appeal of my new decision, and furthermore, both players agreed to continue play by Fax, and this dramaticly cut down the transmission time. This are the explanation why the game completed after some 32 moves.

Communication examples like this shows the very sad and dark side of CC. **21...Qg7 22.Kh2 Nc7 23.Qd2 Bd7 24.a3 Nba6 25.Nb6 Rae8 26.Nxd7 Qxd7 27.Qxa5 Nc5 28.Rxe8 Rxe8 29.Re1 Ra8 30.Qd2 Rxa3 31.Qc2 Ne4 32.g4** Peao Distante 4 (p11) gives a variation on 32...c5 showing why Black resigned. **1-0**

I try to fight the best I could, but after 5 years I must admit, that you are superior. I am satisfied with the game which I think was hard and interesting, and I do not think, that I make great mistakes. You won because you are better than me, and that I must accept. I wish you all the best in the future, and I will follow you in order to see if you can be the first to win the WM-title twice." I appreciate my opponent for his kind words, and I hope you would have the possibility to take part in the CC World Championship second time. 0-1

This is, probably, some explanation, why the quality of these games is not so good. However I consider, they are interesting enough. 1–0

 that Sanakoev is playing without the assistance of
 a computer. In any case, this kind of error, the
 tactical one-mover, is soon to be eliminated
 altogether at the master level of correspondence
 play. Of course, the introduction of computers
 allows for a whole new kind of error, but that's
 another story. Harding: 'Diagram
